SUMMARY

A Frontend Developer with over 4 years of hands-on experience building modern, high-performance, and scalable web applications using Next.js, React.js, and TypeScript. Skilled in crafting responsive user interfaces with clean architecture and reusable components, while maintaining strong attention to performance, accessibility, and user experience. Adept at collaborating with cross-functional teams to deliver efficient, maintainable, and user-centric digital solutions.

WORK EXPERIENCE

Software Engineer I, PT Global Urban Esensial - https://www.dkonsul.com   **Mar 2023 – Oct 2025**
- Developed and maintained hybrid mobile and web applications using React Native, Next.js, and NestJS.
- Doctor 2 Doctor (D2D): Built hybrid mobile app to connect doctors via secure communication platform.
- DKonsul: Develop PWA using NextJS and NestJS for scalable consultation management system.
- Improved code reusability and optimized performance for faster load times and better UX.

Frontend Developer, Getswing - https://getswing.app   **Apr 2022 – May 2025**
- Developed a CMS for golf booking app using Next.js.
- Collaborated with backend engineers to ensure API efficiency and system scalability.

Software Engineer, Koda   **Apr 2022 – Oct 2022**
- Developed a celebration platform reimagining group cards and gifts.
- Leveraged knowledge in JavaScript, Typescript, ReactJS, Gatsby, Material UI

Frontend Developer, Dalenta   **Oct 2020 – Apr 2022**
- Dalenta is the frontier of redefining what a system focusing on a business focusing on administration, operation, and people. We use face recognition as our basis to develop next-generation modern business tools (Dalenta-hub).
- Developed self-service kiosks for temperature detection and facial recognition using React.js (Visuo).
- Developed a postal and MSME self-service sales system using React.js (Sello).
- Enhanced system usability with modular, reusable components for sales transactions.
- Collaborated with backend team to integrate AI-based image recognition modules.

EDUCATION

Bachelor of Informatics Engineering (S1 Teknik Informatika, GPA: 3.12)   **March 2015 – Dec 2019**
Universitas Teknokrat Indonesia

ADDITIONAL INFORMATION

- **Technical Skills:** JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, GatsbyJS, NestJS, React Native Hybrid Apps, Responsive Design, Component-Based Architecture, PWA Development, Git, GitHub, GitLab, Agile, Scrum, MVP Development, UI/UX Collaboration, Web Performance Optimization, REST API Integration.
- **Languages:** Bahasa & English (Basic)
